Dear Mr. Ashcroft,

I support the recently proposed antitrust settlement between Microsoft and the Department of Justice. I would like to see an end to this lawsuit and I believe this is one of the more favorable resolutions.

Microsoft has given up access to several of its Windows products, and given up much of the code that helps Windows run efficiently. Historically, Windows has been a large part of its competitive advantage. This is a very generous concession on the part of Microsoft.

I hope that you will support Microsoft. It has stood out as a great example of a company that can be charitably generous and still make lots of profit. We should allow it to continue these efforts.

Sincerely,

Deborah Rose
